Inkle Weaving Course Review

Thank you for signing up for one of our courses. As you know they are all free and there are never any obligations on your part. We do ask one thing of you, please take the time to review the course you are taking. This will allow us to make necessary changes that will improve the content and the delivery.

We will make it simple for you by giving some question to ask yourself while taking the course. A list of things to look out for that will help you spot where any changes are necessary. Then when you are done with the course, make a note of the most important thing we should consider in changing or adding.

Send this suggestion to school@the-loom-merchant.com It only has to be one sentence or a short paragraph. What ever you think is necessary to get your point across. We truly thank you for assisting us in making this the best course available on the internet. We thank you on behalf of all your fellow weavers.

Things To Consider When Reviewing The Course

There are only a few things to consider when reviewing an online course. The most important two are content and presentation. These two areas can be further broken down into many smaller but important pieces, that will help in defining any issues. We have compiled the following list of questions to consider while going through the course. Please review them so you will be prepared.

- Was the course what you expected? Did it match your anticipation?
- Was the course complete enough as to give enough instruction in performing the task at hand?
- Was there any important area that you feel should have been covered?
- Were all topics covered equally and consistent?
- Did any topic lack completeness, as in needing more direction?
- Were there enough descriptions, artwork, and media presented to give the information in a understandable manner?
- Were the various parts arranged in a meaningful way, generating an even flow going from one part to the next?
- Were the written descriptions detailed enough and easy to read?
- Were the artwork and pictures clear and descriptive enough to relay the proper information?
- Were the audio and video presentations easy to follow and descriptive enough?
- Did you benefit from taking this course, either as a beginner, or as a seasoned veteran?
- After taking this course, would you take another course offered based on your experience?
- Was there any distracting, annoying, or distasteful content in the course?

As you can see there are many ways to look at, and review an online course. This is just a small sample we hope will get you thinking; while you take the course.

Once again, we want to say thank you for taking the time to review one of our online courses.

Sincerely,
The Loom Merchant
